

# CompTIA A+® Certification

"Measurement over the years has shown us that new hires with CompTIA A+ certification become more productive faster than those who have not earned this certification. We look for people who have trained responsively, mastered the material and earned the certification."

- Dave Smith, Vice President of Technical Services  
CompuCom Systems, Inc.

# A+® Certification Program

Computer Teknology Institute uses accelerated learning methods to deliver vast amounts of information in the shortest possible time.

Computer Teknology Institute builds students skills by providing a high-quality learning environment with no distractions geared toward the success of its students. This success means not only certification, but a solid education that enables the individual's creative application of their skills.

Ask yourself these questions

*"Can I wait 12 months to learn the skills I need in my job today?"*

*"Have I got the 100's of hours of personal time available for self study prior to a course?"*

*"Can I or my employer afford for me to take many weeks off of work to complete my education?"*

**If you answer no to any of these questions then we are your only option.**

## Key benefits for becoming CompTIA A+ certified:

**A solid credential that makes you more marketable, leading to better job opportunities.**

- Top technology companies including CompuCom and IBM have made CompTIA A+ certification-mandatory for their service technicians. Additionally, more than 100 companies now require CompTIA A+ certification as a prerequisite to qualify for their corporate and vendor-specific training programs.

**Validation of achievement in an industry valued skill.**

- CompTIA A+ is an opportunity for individuals to earn the credential that proves their competency in core hardware and operating system technologies including installation, configuration, diagnosing, preventive maintenance and basic networking.

**Viable career path, leading to higher level positions.**

- Seventy-four percent of IT managers say a CompTIA certification is an important factor in considering an employee for a promotion.

## NOW Is The Time

## Goals

The goal of this accelerated course is to provide you with the basic hardware, software, and networking skills necessary to function in a variety of information technology positions.

CompTIA's A+ certification is the premier certification that validates the skills required to excel in the role of a computer technician or support professional.

## Build Your Skills And Your Career: Certify Yourself

Our primary goal is your education. Computer Teknology Institute provides thorough instructor-led training to ensure that you learn the fundamentals, and earn your certification. You will emerge able to immediately apply your new knowledge in your career environment.

## The Exams

A+ Essentials Exam (Passing score: 675)

Must take one of the following:

A+ CompTIA 220-602 Exam (IT Technician designation) (Passing Score: 700)

A+ CompTIA 220-603 Exam (Remote Support Technician designation) (Passing Score: 700)

A+ CompTIA 220-604 Exam (Depot Technician designation) (Passing Score: 700)
